## SUMMARY

Full-Stack Developer with hands-on experience in C#, .NET Core, JavaScript, TypeScript, React, and Node.js. NAIT graduate (4.0 GPA) with proven ability to build production-ready applications. Skilled in database design, RESTful API development, cloud deployment, and Agile methodologies. Strong problem-solver with experience optimizing system performance and collaborating in cross-functional teams.

## TECHNICAL SKILLS

**Languages:** C#, JavaScript, TypeScript, Python, SQL, HTML5, CSS3, JSON

**Frameworks:** ASP.NET Core, .NET Framework, Entity Framework, React.js, Next.js, Node.js, Express.js, Blazor, Tailwind CSS

**Databases:** PostgreSQL, SQL Server, MongoDB, Supabase, Firebase, JSON Server

**Tools:** Git, GitHub Actions, Docker, CI/CD, Digital Ocean, Azure, Visual Studio, VS Code, Postman, Figma, Trello, Jira, Vercel

## PROFESSIONAL EXPERIENCE

### Full-Stack Software Developer

May 2025 – August 2025

*Society for AI Literacy, Calgary, AB*

- Built full-stack data collection system using JavaScript, TypeScript, and Python, improving data processing efficiency by 25%
- Integrated OpenAI API with structured prompt engineering, achieving 90%+ accuracy in automated medical data extraction
- Developed RESTful APIs using JSON Server backend, reducing manual processing time from 4 hours to 45 minutes per batch
- Redesigned React frontend with modern UI/UX principles, increasing user engagement by 40% based on analytics metrics
- Implemented Supabase database integration for real-time data synchronization and secure user authentication
- Collaborated with cross-functional team using Agile methodology, participating in daily standups and 2-week sprint cycles
- Wrote comprehensive technical documentation and conducted code reviews to maintain code quality standards
- Debugged and resolved 50+ production issues, improving system reliability and reducing downtime by 30%

## PROJECTS

### Mixtape Card Generator – Spotify Integration App

2025

*somemixtapes.com*

- Built web application using Next.js and React where users paste Spotify links to generate shareable mixtape cards
- Integrated Spotify Web API to fetch metadata including cover art, song titles, artists, and duration in real-time
- Implemented HTML2Canvas for client-side image generation allowing users to download cards as PNG images
- Designed responsive UI with Tailwind CSS and deployed on Vercel with secure API route handling

### eBikes Management System – ASP.NET Core MVC Application

2024

- Developed full-stack web application using C#, ASP.NET Core MVC, and Entity Framework for bike rental management
- Implemented CRUD operations with SQL Server database, handling 200+ product records with optimized queries
- Built user authentication and role-based access control using ASP.NET Identity framework with password hashing
- Designed responsive UI with Razor views and Bootstrap 5, ensuring cross-browser compatibility and mobile responsiveness
- Created comprehensive unit tests using xUnit framework to ensure code quality and prevent regressions

### Certified Origins – Supply Chain Management System

Sep 2024 – Dec 2024

*NAIT Capstone | certifiedorigins.ca*

- Architected full-stack application with 10+ dynamic React pages and PostgreSQL/Supabase database serving 500+ products
- Engineered secure authentication using JWT tokens, RBAC, and 2FA via Twilio API, enhancing security by 85%
- Optimized database schema reducing query response time by 40% through indexing and efficient data pipelines
- Implemented chain of custody tracking, multi-category product management, and bulk CSV data parsing capabilities
- Deployed production application on Digital Ocean with automated CI/CD pipeline using GitHub Actions
- Led stakeholder meetings and delivered project ahead of schedule, earning A+ grade for code quality and documentation

## EDUCATION

### Diploma, Computer Software Development | GPA: 4.0 – Dean's Honor Roll

Jan 2023 – Jan 2025

*Northern Alberta Institute of Technology (NAIT), Edmonton, AB*

- Coursework: Data Structures, Algorithms, Database Management, Web Development, Software Testing, Agile Development
- Completed 2-year intensive program covering full software development lifecycle from requirements to deployment

## CERTIFICATIONS

Foundational C# with Microsoft (freeCodeCamp) | Microsoft Office Specialist | C/C++ Programming Certificate (NICE Computers)
